GLCT LEARNING MODE

The unique five-semester system allows students to complete credits more efficiently while staying aligned with university timelines. In a traditional four-month semester, students often manage up to six credits simultaneously. At GLCT, students have the option to enroll in a focused two-month short semester, taking up to three credits at a time. This structured, concentrated approach enables deeper subject mastery, more personalized attention, and consistently stronger academic outcomes.

SHORT SEMESTERS
Complete up to 15 credits in 10 months

REGULAR SEMESTERS
Complete up to 15 credits in 10 months
